

THE ANESTHESIA CARE TEAM (ACT)

WHAT IS THE ACT?

The Anesthesia Care Team is a dedicated group of anesthesia professionals who guide patients through the complete journey of their care.

WHO'S ON THE ACT?

ACTs are led by a physician anesthesiologist and supported by qualified anesthesia professionals like CAAs, nurse anesthetists and anesthesiology resident physicians.

WHAT MAKES IT UNIQUE?

The ACT ensures each patient receives the best, and safest, anesthesia care. Unlike other anesthesia models, the ACT promises every patient has access the highest-qualified anesthesia professionals possible.

WHAT ROLE DOES A CAA PLAY?

CAAs are vital members of the ACT. They provide a wealth of knowledge and skills to ensure patient safety before, during, and after surgery.

HOW DOES IT WORK?

The ACT is led by a physician anesthesiologist and supported by physician extenders like CAAs and CRNAs. This model brings the safest possible care to every patient.
